Three Kentuckians Attacked by a Ruffian and Riddled by Two Pistol Shots.

The Wabash and West Shore Cut Rates.

By Telegraph to THE SENTINEL.

CHICAGO, May 13.—Rumors are current that indisputable evidence has been obtained that the West Shore railway, in connection with the Wabash, is making a 15 cent rate on grain from St. Louis and Mississippi river points to New York, the same as is now charged from Chicago. It is also charged that they are taking a fertilizer, which is a class higher than grain, at the rate of 15 cents, a cut of 14 cents per 100 pounds. The Wabash line from here, via the Chicago and Atlantic and Lakeport, is also taking a large amount of business from here which is given to the West Shore, and it is claimed a rate of 12½ cents on grain to New York is being made.

General Grant.

By Telegraph to THE SENTINEL.

NEW YORK, May 13.—Between 10 and 11 o'clock last night a hypodermic injection containing five drops of morphine was administered to General Grant. This quantity of opiate usually neutralizes the constant pain in the throat so that the patient is able to sleep, but such was not the result last night. The general talked too much with visitors and during his noonday ride was chilled. His throat was swollen a little and the pain was so increased that the usual opiate did not produce the usual result and the general found no sleep until 3 o'clock this morning. At that hour he slept and continued to do so, with breaks of wakefulness until between 8 and 9 o'clock. The increased swelling of the throat is noticeable today and he is not so well.

ATLANTA, Ga., May 12.—William S. Roberts, president of the defunct bank of Atlanta, for whom a requisition was made by Governor Hill, of New York, and is now pending in the courts, cut his throat with a razor this morning. While the wounds are gaping and ugly, the physicians say they will not be fatal. The recent complications have so affected Mr. Roberts' mind as to render him partially insane. The grand jury now in session found true bills against him for perjury and embezzlement. It is also reported that the grand jury has found a bill against E. H. Walton, cashier, for perjury.

FIERCE FLAMES.

By Telegraph to THE SENTINEL.

HUNTINGTON, Va., May 12.—William Hess, a farmer, yesterday was burning brush near a valuable piece of lumber land on his land in Fulton county when a high wind carried the flames into the timber and the fire was soon beyond his control. He fought the flames until he was unconscious. His two daughters, Lizzie and Annie, found him lying on the ground by the fire. They dragged him to a place of safety but while doing so their clothing caught fire and they were terribly burned that their recovery is considered doubtful. Hess was found by the neighbors and carried home. He is still unconscious and will die.

It is known as the "Frost system of carbonated air for lighting cars," and has been adopted by the Pennsylvania Railroad company, which is always ready to adopt valuable improvements. By Cable to THE SENTINEL.

LONDON, May 13.—A dispatch from St. Petersburg arrived last night. Baron De Stael immediately had an interview with Earl Granville. It is surmised that Russia accepts a convention. Earl Granville instructed the English delegate to the canal conference to deny that the Paris commission had the power to decide that in question.

FAMILY FRACAS.

By Telegraph to THE SENTINEL.

PITTSBURG, May 13.—This afternoon Mrs. Anna Pershing, wife of W. C. Pershing and daughter-in-law of Rev. L. C. Pershing, president of the Pittsburgh female college, a prominent Methodist Episcopal institution of learning, shot herself in the right temple and is now in a dying condition. Six weeks ago while a student at the college she married young Pershing. The marriage was clandestine but subsequently there were satisfactory explanations for all concerned. The quarrel last night it was said, culminated in young Pershing going to Chicago. His wife started out to hunt him to-day and not finding him returned to her home in Allegheny, where she shot herself. Mrs. Pershing was the daughter of a wealthy resident of New Castle, Pa. She is eighteen years of age and quite handsome.

THE PROSPECT OF WAR.

By Telegraph to THE SENTINEL.

ENGLAND and Russia has brought up the question of the practicability of Albion's monster iron-clad, of which so much has been said, which she has pointed to with such pride, and upon whom she seems to rely as her chief strength. It has been proven that, even with the numerous coaling stations which England has established all around the world, her iron-clads have been increased to such a ponderous bulk with heavy guns and steel armor that they are unable to transport sufficient coal to carry them from one station to the other. If this is a fact and it is not disputed any seaport country which can afford to strengthen its land defenses with heavy guns and steel armor need fear nothing from the navies of England. These large boats have proved unsatisfactory in heavy weather, and this, together with the failure to solve the fuel problem, renders them so many white elephants upon the hands of the government.

MRS. CRISTER has now been eight years a widow, and during the most of these years she supported herself by acting as Secretary to the Society of Decorative Art. Her pension then from the Government was only \$50 a month, but such a to-do was raised by the newspapers and public about this niggardly way of dealing with a brave officer's widow that a short time ago her pension was doubled. So now she is enabled by close economy to live without working, and this she does in a most charming way. She has a little flat in a house in East Eighteenth street, New York, and a prettier or more attractive apartment it would be hard to find.

THE enormous surplus of wheat still in this country does not justify a further rise in the price of that commodity, says the Chicago News. Statistics show that 54,000,000 bushels remained over from 1881. This is nearly the amount required for seed. The crop amounted to 50,000,000 bushels, half of which was needed for home consumption. The exports thus far have scarcely exceeded 100,000,000 bushels, which would indicate that we will carry over double the amount we did before. With this in view, and the prospects of foreign war greatly lessened, we cannot see why prices should advance.

COUNT MOLTEC not long ago, leaving the Reichstag early, did not find his carriage waiting and took a cab to his office. On alighting he drew out his purse to pay his fare, when the cabman whipped up his horses and dashed away, crying, "No gold, Herr Field Marshal. The honor is sufficient." But Moltec luckily had noticed the driver's number, by which means he found out his name and address, and next day he sent him his photograph with the autograph inscription: "Moltec to his cabman, March 9, 1884."

The case of Miss Mary Marker, of Walla Walla, Washington Territory, may be cited as an evidence of what a clear-headed, common-sense woman may do unaided by the sterner sex. She arrived in Chicago from her far distant home with twenty car loads of cattle from her own raising. She says it is done as an experiment; that if it is successful she will ship 400 head more this season. She raised the stock herself, and is proud of it.

Edwin Booth uses the compound word "stage-sick" as against "stage-struck," a popular expression. Mr. Booth's fire of ambition is said to have been quenched by the tears which trickled down the narrow and sunken cheek of a dyspeptic. He told Lawrence Barrett lately that next season would be a "farewell season" in fact for Edwin, son of Junius Brutus.

Best for the Doctors.

It was in Minnesota, the land of cold winters, magnificent wheat farms, and gigantic flour mills. The doctors tried to cure Mrs. Marcyto Pike, of Medford, and couldn't do it. When the weather grows warmer, that extreme tired feeling, want of appetite, dullness, languor, and lassitude, afflict almost the entire human family, and scurvy and other diseases caused by humors, manifest themselves with many. It is impossible to throw off this debility and expel humors from the blood without the aid of a reliable medicine like Hood's Sarsaparilla.

At no other season is the system so susceptible to the beneficial effects of a reliable tonic and milder agent. The impure state of the blood, the deranged digestion, and the weak condition of the body, caused by its long battle with the cold, wintry blasts, all call for the reviving, regulating and restoring influences so happily and effectively combined in Hood's Sarsaparilla.

Fort Wayne Paint and Color Works,
No. 12 West Columbia Street Fort Wayne, Indiana.

To Painters

And others wanting First-class Paints: Do you know that you have in Fort Wayne a Manufacturer of Mixed Paint and Grinder of Colors, where you can buy your Paints from first hand instead of paying the middle man his profits, which are from 25 to 33% per cent. O. L. STARKEY, the Painter and proprietor of the Fort Wayne Paint and Color Works, came to Fort Wayne in April, 1866, and is identified as one of the old citizens who has helped build up Fort Wayne, and his knowledge of Paints and the composition of pigments to form different shades and tints is well-known to the public, and his long practical experience in painting gives him the knowledge of Paints that a mere dealer cannot have for he does not know anything about Paints, as he buys them sealed up and he cannot tell you what it takes to make this or that shade. All he knows is what the label on the can says. Neither can he tell you shades that will or will not fade. By buying your Paints of O. L. STARKEY you can get all the information you want. I am making Liquid Paints in all shades and colors; also, the same shades and colors in paste form, the same thickness as white lead and requires thinning down the same as white lead. In making the different shades my formulas are all registered giving the amount of each color it takes to form certain shades all thoroughly mixed together in the powder mills, then wet down and run through a mixing machine, and from there to the mills where it is all ground together making a pigment that cannot be made by hand. Call or send and get some of my sample cards of colors and tints; also see elevations of gothic houses colored up with four and five shades, which will give you a good idea how to paint and ornament the outside of your houses.

I say again, do not buy of the middle man if you want to save money. I will guarantee my prices and quality of goods with any manufacturer in the United States.

THE CITY.

But 19 days remain of the great *Red Letter Sale*, closing out the Sam, Pete & Max stock of clothing, etc.

The council had a bigger crowd than the circus.

The residence of William Case, at Huntington, was entered by thieves in broad daylight Monday, during the Doris circus parade, and robbed of \$100.

At the next meeting the council will fit the salaries of officers and at the meeting in June they select a member of the school board and secretary of the city board of health.

Major Muhler let Dominick Russell out of jail. The man's wife and little child appealed to Mr. Muhler, who not only threw off his own fees, but paid the state fine. The prosecutor and police threw off their costs.

Mrs. Lucy A. Sims, of Indianapolis, has written Col. C. A. Zellinger about John Wolford, who killed was at Peabody, on the Nickel Plate road, last week. She fears it is her father or brother. She says her father resides near Huntington.

Next Friday evening, Dr. J. W. Young will present Anthony Wayne post with a set of corps badges; also the portraits of twenty leading union generals and twenty confederate generals. This will be the occasion of a camp fire gathering.

The indications for the lower lake region, as reported by the weather bureau at Washington to THE SENTINEL, are as follows: Fair weather, variable winds, shifting to east and south, stationary temperature in eastern portion, slightly warmer in western portion.

General Manager Talmage has issued orders to the effect that no employee shall be allowed to read any newspaper, periodical or any kind of literature during working hours. If the Wabash officials are not getting strict on their employees, then we don't know what that term means.

To-morrow being Ascension day there will be services at Trinity church at 10:30 a. m. and 7:30 p. m. At the evening service the members of Fort Wayne Commandery K. T. will attend in uniform and will be addressed by Eminent Sir W. N. Webley, grand prelate of Indiana.

A joint stock company has been organized with a capital of \$1,000, for the purpose of building a first class restaurant, skating rink and sleeping rooms at Mankinkeon on the Nickel Plate road. Half the stock was subscribed the first day, and it is thought there will be no trouble in raising the necessary funds to complete the structure within the next six weeks.

The United States Court of the Eastern District of Missouri has ordered the receiver of the Wabash Company, the lease of the Indianapolis, Peru & Chicago railroad, to surrender, within thirty days from May 8, to George T. M. Davis trustee of the Chicago, Louisville & Cincinnati road, the whole of the last-named road, together with all property belonging to said road.

At the session of the state medical society at Indianapolis, last night, Dr. J. S. Gregg, of this city, presided, and Dr. S. H. Woodburn, president, read the annual address, his subject being: "Have we really increased in knowledge and improved in practice?" The address was discussed by Drs. Moffatt, of Rushville, Lomax, of Marion, Wishard of Indianapolis, and Steemen, of Fort Wayne, after which the society adjourned until 9 a. m.

People who allow cows to run at large, may not know that there is an ordinance against them and Pound Master Cook is about. Pigs and geese are under its provisions also.

Miss Annie White, daughter of Capt. J. B. White, left last night for Brooklyn, N. Y., where she will join her cousins and together the party will visit relatives in Scotland.

The Doris show is a very tame snap and lost money here as it did at every stand it made this season. Red Adams and his gang of thieves are with the circus. The Messrs. Doris gave a chattel mortgage on their property to the Buffalo Printing company last evening.

Judge Frazer is concluding consideration of the Little River ditch case. This drain will be of incalculable benefit to this county, but may bankrupt a few people along its course. It drains an immense tract of land entirely worthless without it.

President W. O. Hughart, of the Grand Rapids and Indians railroad, has returned from New York City where he has been for the past few days looking after the matter of placing the general mortgage of the road, \$13,000,000 on the stock exchange for disposal.

He says railroad business is dull, but the outlook is fairly good. The city of Fort Wayne is interested in the Grand Rapids road to the extent of \$100,000, but with another mortgage the stock is not worth much.

The strike at the Kerr Murray foundry assumes a bad phase. Manager Crosser asks the mayor to give protection to men willing to work, and it cannot be denied but there are a good many of them. A stranger, from Chicago, struck a colored driver at the foundry this morning and knocked him silly. When the negro recovered he fled. A few more such brutes as that and the officers will have to take a hand, and they will do it. Men have a right to quit work but they have no right to prevent others from working or menace them.

On Saturday, the 16th, the Wabash loses another valuable division of its system, the Champaign, Havana and Western, Mr. A. J. Thomas, who has been appointed receiver, taking possession of the property. Yesterday M. M. McDonald, son of Judge McDonald and late traveling auditor of the Wabash, was appointed general manager of the road, and arrangements have been made with the Indians, Bloomington and Western people to operate the road in connection with the Indians, Bloomington and Western, the equipments of the Champaign, Havana and Western being in such wretched shape, it is stated, as not to furnish the facilities needed to properly operate the road.

A. Wabash Blacksmith Replies to The Tribune-Democrat.

Four Way, Ind., May 13, 1885.

To the Editor of THE SENTINEL:

I wish to correct a mistake in your last issue about blacksmiths and their helpers, copied from the St Louis *Advertiser*. The fire in the blacksmith shop are lighted quicker and more promptly now than before. They are not lighted before or after the whistle blown, but when it is blowing, and in three or four minutes after the whistle blows the fire is ready for business.

WABASH BLACKSMITH.

Do Not Wish to Incur Jay Gould's Wrath.

While the scheme for reorganization of the Wabash company has been accepted by the English security holders, it was not done with a good grace, says Bradstreet. The recent meeting in London, at which Mr. Joy, the president of the company, was present, and the speech delivered by that gentleman are remarkable things of their kind. He earnestly deprecated any investigation of the past management of the company, and while disclaiming any desire to defend Mr. Gould, declared that it would be for their advantage to continue amicable relations with him, as he had it in his power to severely injure the Wabash by turning the business of his other lines from it. The scheme adopted comprehends an assessment upon the common and preferred stocks, and the exchange of the general mortgage bonds for new 2 per cent. bonds, interest for the first five years, payable only if earned and without right of foreclosure for seven years.

Mrs. Woodworth, the Revivalist.

Mrs. Maria B. Woodworth, the revivalist, who has been causing such excitement in a religious way, at various places and most recently at Tipton, is at Indianapolis, and she says she is going to Kokomo, Fort Wayne and Union City to hold meetings. She is about forty years of age, well preserved and has a look of intelligence and decision of character. She told a reporter of the Indianapolis News that she joined the Christian Church when she was thirteen years old, and continually since then she had received calls to do the work to which she finally yielded. She spoke of having had frequent celestial visions and said that hundreds of people had gone into trances in her meetings and sometimes they go to heaven, and others, the infidels, are shown directly to the bottomless pit.

Police Changes.

Marshal Meyer has appointed Jesse Patton and Henry C. Franke his deputies.

Mr. Franke has long been an efficient member of the police force and succeeds Charley Brandt.

At the recent primary election Mr. Franke made a splendid race for marshal and his German friends aided Marshal Meyer to give him a place.

Mr. Franke began his work to-day. Tom Doyle is a candidate for his place on the police force and the commissioners will meet to-night and elect him. The vacancy occurs from the Eighth ward and as Mr. Doyle is recommended by both councilmen from the precinct and Capt. Hugh M. Dehl, there is no question about his election.

The Educational Board.

The state board of education met at the rooms of the department of public instruction, at Indianapolis, last evening, and after a little routine work adjourned to meet again this morning. There were present Dr. D. S. Jordan, president of the state university; President George P. Brown, of the state normal school; Superintendents J. S. Irwin, of Port Wayne; Cooper, of Evansville; L. H. Jones, and John W. Holcombe, of Indianapolis.

The chief work will be the commissioning of high schools and the election of two trustees of the state university, to succeed Dr. J. D. Maxwell, of Bloomington, and Rev. H. L. Stetson, of Logansport.

Dr. Maxwell will doubtless be his own successor, while Mr. Stetson will likely be succeeded by some young and

vigorous alumnus of the university. Representative Adams of Morgan county, is talked of for the place.

Federal Court Jurors.

The petit jury for the June term of the United States court at Fort Wayne is composed of the following named persons:

James Andrews, Claypool; John Archer, William Bryant, Michael Balter, E. L. Chittenden, Thomas R. Hedrick, Henry Paul, George H. Wilson, Fort Wayne; John C. Brand, Waterloo; John Buzzard, Joseph Beaver, Huntington; William Bunker, Warsaw; H. Ford Billiter, Mount Etna; Basil Hendricks, Berne; Sylvester J. Hally, Janesville; Frank M. Johnson, Woodburn; Samuel W. Miller, Plymouth; E. H. Pocock, Walnut; Charles D. Rippey, Lanesburg; William Richlin, Beaver Dam; Joseph Rippey, Syracuse; William Shoff, Huntertown; Samuel S.
